CLINICAL WORK EXPERIENCE

Physician Associate, Gastroenterology

Salem Gastro (Salem, OR)

February 2025 - Current

- Perform thorough patient assessments, detailed histories, physical exams, and ordering and interpretation of diagnostic tests
- Develop and execute individualized treatment plans for a wide variety of gastrointestinal conditions, including GERD, IBS, IBD, Celiac disease, esophageal motility disorders, metabolic associated steatotic liver disease, alcohol associated liver disease, hepatitis, cirrhosis, among many others
- Provide pre-screening assessments for patients seeking colorectal cancer screening
- Collaborate with gastroenterologists in the hospital setting for management of GI emergencies, such as GI bleeds, decompensated liver disease, esophageal foreign bodies, and IBD flares
- Conduct regular patient education to ensure patients understand their GI conditions and associated treatment options

Physician Associate Fellow, Hospital Internal Medicine

October 2023 - October 2024

Mayo Clinic (Phoenix, AZ)

- Provided high-quality patient care, managing a wide range of acute and chronic conditions within internal medicine and hospital subspecialties, including neurology, cardiology, emergency medicine, palliative medicine, oncology, hematology, nephrology, critical care medicine, heart failure, and interventional radiology
- Collaborated with a multidisciplinary team to develop and implement patient care plans
- Conducted and presented case studies during Grand Rounds, AAPA, and morbidity & mortality conferences
- Educated and counseled patients and their families on disease processes, treatment options, and preventive health measures

Emergency Department Medical Scribe

February 2019 – March 2020

Vituity (Westerville, OH)

- Assisted providers in delivering professional, quality care to patients in the emergency department
- Provided documentation of patient history of present illness, review of systems, and physical exam
- Transcribed interpretations of tests such as EKGs, ultrasound, and additional procedures into the medical chart
- Ensured maintenance of medical record by updating patients' medications, lab results, and disposition through navigation of the Cerner electronic health record
